

The **SPARKLY LED300SBW** is a versatile LED lighting fixture equipped with 16/24 channel modes, featuring a 300W LED light source with a color temperature of 8000-8400K and a lifespan of 20,000 hours. It delivers a luminous flux of 4877 lm and an illuminance of 16700 lux at 10 meters, with a minimum spot of 0.35m. The fixture offers various features including electronic dimming, adjustable strobe effects, and precise pan/tilt control. With a compact design, it includes a 1.7-inch screen display, color wheel with 9 colors + white, 11 fixed gobos + white, and 7 rotation gobos + white. It operates on AC110-240V~, 50/60Hz power.

## SOURCE

Light source: LED 300W  
Color Temperature: 8000-8400K;  
Life time: 20000 hours;  
Light Source Luminous Flux: 4877 lm;  
luminance at 10 meters: 16700 lux, minimum spot 0.35 m;

## OPTICAL SYSTEM

Beam angel: 2-38 °

## DYNAMIC EFFECTS

Color wheel: 9 colors+white;  
Fixed gobo: 11 gobo + white;  
Rotation gobo: 7 gobo + white;  
Gobo size diameter: 19.6 mm;  
Prism: 1 round 3 prisms, Can be rotated clockwise or counterclockwise;  
Focus: support li near focus; with frost function;  
precise positioning of pan /tilt.  
Dimmer: 0-100% electronic dimming;  
Strobe: Support electronic strobe and adjustable speed strobe effect, support strobe macro function;

## CONTROL & PROGRAMMING

Display: 1.7 inch screen display, can reverse 180 ° ;

## MOVEMENT

Pan: 540° ; 8 Bit/ 16Bit;  
Tilt: 270 °; 8 Bit/ 16B it;

## ELECTRICAL

Power: AC110-240V~,50/60Hz;  
Total power: 350W;  
Current: 1.6A-3.2A ;

## PHYSICAL

IP Rate: IP20;  
Product size: 325x240x570 m m;  
N.W: 13.5 kg;

## Dimensions
